HAVE A LOOK

AT OUR SILVER LEVER WATCH at Rs. 35 before buying, and you will give it the preference before any other.

The Watch as it is now, is the result of 20 years experience in the Indian watch trade, and we guarantee it to be the most perfect watch ever offered to the public for such a small outlay.

Being the manufacturers ourselves, the buyer obtains the watch from first hand. This explains its cheapness.

The Watches are of medium size in heavy engine turned silver cases, either hunting or half hunting. Guarantee 3 years.

To be obtained only direct from our firms at Bombay, Calcutta, and Secunderabad.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, OCT. 1.

THE fluctuations in Exchange this week although frequent have not been very important, the difference between the highest and lowest points having only been 3-32d. per rupee, and the effect on business has accordingly been less unsettling. In Imports there has been a better chance of transactions going through, and Exports, especially of Wheat, are developing into very large figures. In that particular article, in fact, the movements during September have been quite of an exceptional character, the receipts in round figures totalling about 60,000 tons as compared with 18,000 and 30,000 tons respectively for the corresponding month of the two previous years; and it is now evident that unless something of an unforeseen character intervenes to check the trade the total for the year will be the largest on record. Linseed, too, is being largely dealt in for the time of year, the arrivals into Bombay in September being about 13,000 tons against 8,500 and 4,700 tons in 1884 and 1883. These figures tell on Freights which at 22s. 6d. to 23s. 9d. per ton are fully 2s. 6d. higher on the week, but in the matter of value and finance they assume much less importance. In that connection Cotton is our most important staple, representing, as it does on an average, over one-third of the total foreign export trade of the port. Had we anything like the same degree of activity in it as in Wheat the finance required would be an important feature just now in regard to Exchange, but situated as we are at present, with an available stock of probably rather under than over 50,000 bales—which will be nearly all wanted for the consumption of the local mills up to the end of the year—the rupee will not be materially strengthened by the bills which will have to be drawn against Cotton for the next couple of months. The growing crop, however, promises much better than the last. In Gaseerat and Kattiwar the want of rain is badly felt, and may ultimately diminish the yield in those districts, but from other quarters the accounts on the average are decidedly good, and it is expected we shall have arrivals of Omras into Bombay during this month. Money remains very easy, but Government Paper influenced by Exchange remains quiet, and the Share market is quite devoid of activity.

MONEY.—The general position of the market continues extremely easy with no indication of any change in the near future. The last return of the Bank of Bombay showed a falling off in the trade demand of 31 lakhs and an increase in the Cash Balance of 17½ lakhs. From Calcutta we hear to-day that the Cash Balances of the Bank of Bengal have increased by 18¼ lakhs during the week. Rates of discount here remain the same, viz.:—4 per cent. on Government Paper with the Bank, and 2 per cent. outside.

EXCHANGE.—We closed last Thursday with demand Bank Bills at 1s. 6¾d. and 3 months' Credits at 1s. 6 7-16d., but signs of a reaction were apparent, and although the price of Bar Silver in London remained unchanged at 47½d. per oz., both bank and private paper had given way 1-32d. before last steamer left. On Saturday the Banks reduced their buying rates 1-32d. and again on Monday bringing 3 months' Credits down to 1s. 6 11-32d. No change occurred on Tuesday, but yesterday with Silver up 1-16d. a firmer feeling was observable, and a recovery of 1-32d. was established. This morning, with advice of the biddings for Council drafts in London yesterday having resulted in the whole 15 lakhs being taken up at an average of 1s. 6-27d., tenders at 1s. 6¾d. only receiving 29 per cent., the market opened very firm and for a time a rise of 1-32d. was quoted, demand Bank Bills to a small extent having been done at 1s. 6¾d. During the day, however, the tone eased down slightly, and we close at the following quotations for ready bills :—

Bank Bills on demand			per rupee.
Do.	Telegraphic Transfer	1s. 6 3-16d.	"
Do.	2 months' sight	1s. 6 5-16d.	"

The cause of the weaker tendency this afternoon is the announcement received through Reuter that the amount to be offered at next week's biddings will be increased from 15 to 20 lakhs; although why that should have any important effect on the market we fail to see. Everyone knows that Government have an average of about 16 lakhs per week to dispose of between now and the end of March and that whatever the amount offered at the biddings they would always be open to sell more at a price, so that really no new feature is brought into operation whether the amount advertised be 10 or 20 lakhs. The fact is that in the existing state of uncertainty as to the future, and a larger current trade at the moment in imports than exports, there is no actual strength in the market at the present level of the rupee and very little helps to create an unfavorable feeling. Bar Silver in London yesterday was quoted at 47 9-16d. per oz., and the shipments of the metal for this side for the week are only telegraphed at £50,000, private messages reporting the supply limited. In addition to this Calcutta keeps above our level, so that we have some elements of firmness apparent, but until the amount of private bills offering is largely increased, it seems hopeless to look for any improvement being maintained irrespective of what the more distant future may bring forth.

GOVERNMENT PAPER.—The market for paper has been at no time particularly active, and the fluctuations have been comparatively limited. Fours opened quiet at Rs. 99¾ ready, Rs. 97⅞ for delivery at the end of October, and on Monday steadied up to Rs. 97⅞ and 97½ respectively; on Tuesday, however, with weaker accounts from home and some irregularity caused by the monthly settlement, rates receded ¼, of which 3-16 was recovered again yesterday. To-day the tone has been firmer with rather more doing, and quotations have advanced to Rs. 97⅞ ready, Rs. 97 9-16 for delivery. Fours-and-a-half have been firmer throughout, and now stand at Rs. 99.

SHARES.—The general tone of the market has ruled very quiet this week for all kinds of shares, but *Spinning and Weaving Mills*, owing to the rise in Cotton, have been dull and declining. The fall during the week has been Rs. 45 in Sholapore, Rs. 40 in Ripon, Rs. 35 in Bombay United, Esoorla, and Mahalukshmi, Rs. 30 in Hingunghaut, Southern India and Western India, and with few exceptions, Rs. 10 to Rs. 15 in other shares. *Press* Companies are dull with little doing, although future prospects especially in the Berars are rather more hopeful. *Banks* are quite without change, Bank of Bombays being firm at Rs. 725, Agras at Rs. 120, and Nationals at Rs. 105. In the *Miscellaneous* list, Bombay Burmah Trading Co.'s shares are almost the only ones in which the fluctuations have been important. After declining to Rs. 3,300 they are steady at the close at Rs. 3,325. Treacher and Co., Ld., are quoted at Rs. 1,100 no sellers. Kemp and Co., Ld., are Rs. 329. Barty's Flour Mills are offering at Rs. 220. Bombay Flour Mills stand at Rs. 710.

IMPORTS.

PIECE-GOODS.—The spot market for goods has been decidedly better of late, a very general demand having been experienced from the leading up-country markets in the largest week's transactions of the season. From the bazaar the clearances are estimated by the dealers at 4,000 to 4,500 packages, and stocks being by no means heavy sellers have succeeded in obtaining an advance of a half to one anna per piece in the leading weights of Shirtings. Other kinds of Grey Goods are firmer but not as a rule quotably higher. In Bleached cloths, Jaconets and Mulls have met a large enquiry at in some instances slightly better rates, and Dyed and Printed goods are also moving much more freely. For future shipment the enquiry has been active, and a fair volume of trade has no doubt been put through although some additional firmness in Manchester has been a retarding influence.

In *Local* Goods a comparatively large business has been done, say about 3,000 bales at an improvement in most cases of ¼ anna per lb.

YARN.—In imported Yarns the feeling is firmer and the enquiry somewhat better, but the demand proportionately is not so strong as for goods, and prices are unchanged. *Local Yarns* are in fair request for China, but an advance of 1-16 to ⅛ anna per lb. asked by the mills checks business. We quote :—

Twist	No.	10s	5 1-16 to 5 7-16
" and Water	"	20s	5 13-16 to 6⅛
"	"	24s	6¼ to 6½
"	"	30s	6⅝ to 7⅛

METALS.—*Copper* is being fairly well enquired for in the bazaar and from second hands the business passing is considerable, but to arrive the enquiry is slack and buyers ask for a reduction of As. 4 to As. 8 per cwt. *Yellow Metal* is steady with a moderate demand. Prices are partially As. 4 per cwt. higher. *Iron* is quiet at unchanged values.

COAL.—A small retail business has been done alongside steamers in harbour at Rs. 14½ to Rs. 15 for Davison's West Hartley and Rs. 15 for Cardiff. To arrive sellers ask Ans. 8 per ton above these rates but buyers show no disposition to operate.

EXPORTS.

COTTON.—With fairly strong reports by wire from Liverpool the market has been nominally much firmer during the week with an advance of Rs. 2 per candy in most descriptions of new crop. Up to yesterday the prices asked showed a rise in some cases of Rs. 4, but to-day with no very special reason apparent sellers would take Re. 1 to Rs. 2 per candy less. In the shape of actual business there has been very little done for export. Old Cotton shippers cannot touch at the prices which the mills are paying for it and New Crop for distant shipment finds no enquiry at home unless at about Rs. 5 per candy under our level. Dealers amongst themselves have been doing something on speculation from time to time and New Good Broach for March is said to have changed hand at Rs. 220, but European firms have never of late years been more conservative in their action than this season, and we question whether more than 5,000 bales of new crop have yet been contracted for on this side.

Crop advices have not changed much in character this week. The want of rain in the Broach and Dhollera districts has become more pressingly felt and unless an early fall takes place damage is sure to result, but from almost every other quarter accounts are very favorable. Of Bengals samples have already been received and it is confidently predicted that we shall have Omras available for October shipment. That however depends on the weather. With such a light monsoon as we have had hitherto it is not at all unlikely that we may have heavy October rains which would not only retard the plant in coming to maturity, but probably decrease the out-turn.

The movements of Cotton to date show the following comparisons with the two previous years :—

WHEAT.—Slightly stronger accounts from Europe and declining Exchange induced an active demand in the early part of the week and arrivals being exceptionally large a considerable business was done both ready and forward at in some cases slightly higher prices. Latterly however the ruling influences have all turned the other way, more especially Freights and we close to a dull market at the following prices :—No. 1 Soft White Rs. 26½ to 26¾, Jubbulpore Rs. 25 to Rs. 25½, Red Pussy Rs. 24½ to Rs. 24¾, Ahmedabad Rs. 24¼ to Rs. 25, Loskari Rs. 23½, Hard Yellow Rs. 25, Hard Red Rs. 22½ per Candy. No. I Club Delhi railway terms we quote at Rs. 3-11 per cwt.

SEEDS.—*Linseed* is firm but rather quieter at Rs. 6-14 ready Rs. 6-2 for April-May. *Rapeseed* has been run up in price owing to the short rains in Guzerat and for new crop of Yellow Guzerat April delivery Rs. 6-5 per cwt. is asked. Cawnpor, Yellow we quote at Rs. 5-14 per cwt. *Gingelly* is now coming forward, but only in small quantities the Khandeish Crop being both poor and late. For new January delivery dealers ask Rs. 38 for White, Rs. 37 to Rs. 37-8 for mixed, per candy.

THE DURBAR FOR HILL CHIEFS.

(FROM OUR OWN CORRESPONDENT.)

SIMLA, OCT. 1.

The following Native Chiefs will attend the Durbar in the order of precedence :—The Rajahs of Sirmur, Kahlur, Bashahr, Hindur, Keonthal, and Baghal ; the Ranas of Baghat, Jubbal, and Bhujji ; the Thakur of Mailog ; the Ranas of Balsan, Dhami, and Kuthar ; the Thakur of Kunhiar, the Rana of Mangal, the Thakur of Bija, the Ranas of Kothkai and Darkuti, the Thakurs of Tarochi and Ratesh. The brother of the Rana represents Kumbarsain. Forty-nine chiefs' relations will have chairs at the Durbar.

LATER.

The durbar held to-day was very interesting. The usual ceremonies were gone through. All went off satisfactorily. Immense crowds of native from the districts around had come in. Many ladies were invited to witness the ceremony from the verandah of Viceregal Lodge.

The Viceroy made the following speech :—Rajas, Chiefs, Thakurs—I was desirous that my first session at Simla should not close without an opportunity being afforded me of making the personal acquaintance of those Chiefs whose territories are situated in the neighbourhood of the summer capital of the Government of India. This desire has been strengthened by my knowledge that since the restoration of peace and order in this part of the country—a period of seventy years—the relations which have existed between the British Government and the Chiefs of the cis-Sutlej hills have been uniformly of a satisfactory character. It is therefore with very sincere pleasure that, as the representative of Her Majesty the Queen-Empress, I welcome you at this Durbar. It will be my duty to convey to her most gracious Majesty the pleasing assurance which your presence here to-day signifies—that the cis-Sutlej Chiefs are forward ever in manifesting their loyalty to the Crown, and that they are as ready as in by-gone times to prove by their deeds the reality of their protestations and sentiments. Their offers of service when there seemed to be a probability of trouble beyond the north-western frontier will not be forgotten by Her Majesty's Government. Though until to-day most of the Chiefs here present have been personally unknown to me, I have kept informed of all that concerns your States by His Honour the Lieutenant-Governor of the Punjab, who has been intimately acquainted with your affairs for many years past, and who continues to take the keenest interest in your welfare. From him I hear of your good and firm government, your gentle and just rule, and your peaceful administration. If you will continue to rule so as to merit these words of commendation, you will give the best return in your power for the benevolent protection that the British Government has always extended to your States. It is with special satisfaction that I have heard from the same source of the remarkable advance made by the Sirmur State since the accession of the present Raja, who is a Knight Companion of that exalted order of which I have the honour to be Grand Master. The civil, criminal, and revenue administration of that State, the opening of communications, forest conservancy, and police arrangements, are matters which have been specially brought to my notice. In the spring of the present year I was prevented from carrying out my intention of visiting Nahun, and seeing for myself what has been effected by the Raja's efforts ; but I am glad to think another opportunity of doing so has occurred, and I shall shortly have the pleasure of being His Highness's guest. You have all, in varying degrees, similar opportunities of contributing towards the moral and material well-being of the people over whom you are called to rule. Their interests are identical with yours, and all wise measures taken with these objects must infallibly result in increasing your own prosperity and credit, and in securing for you the continued approbation of the British Government, which is ever solicitous for the honour and dignity of the Chiefs and the happiness of the people living under its protecting influence. Should it fall to my lot again to welcome during my tenure of office those present at this durbar, I trust that it may be in my power to congratulate you all upon continued improvement in your administration and the increased prosperity of your States. You carry back to your homes my heartiest good wishes, and the assurance that I shall ever take a deep interest in all matters concerning your welfare.

THE FLOODS IN BENGAL.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, OCT. 1.

An elaborate and thoughtful Resolution has just been issued by the Lieutenant-Governor in which the position of the flooded districts is carefully reviewed. The area affected by the floods is roughly estimated at about 4,000 square miles. The allotment of Rs. 10,000 under the Agriculturists Loans Act has been raised to Rs. 25,000, in addition to advances made by the district staff. Notwithstanding this assistance, and that telegra, hed before, there will be still a large number of cases unprovided for ; and the Lieutenant-Governor appeals to the public charity. He has appointed a mixed provisional committee of European and native gentlemen, with the Hon. Mr. Cockerell as president, for collecting subscriptions and organising relief for the forms of distress with which the Government is unable to cope.

THE CALCUTTA PORT OFFICER.

Captain A. Stiffe, Port Officer, has returned from leave, and taken over charge from Captain Petley, who reverts to his substantive appointment as Deputy Conservator of the port.

THE CALCUTTA TRAMWAY COMPANY.

As the solicitor who appeared for the Tramway Company in the municipal prosecution practically admitted the offence of which the company was accused, the Chief Presidency Magistrate fined them fifty rupees in each of three cases on an assurance being given that the company will in future carry out all requirements.

WE are requested to state that the first meeting of the committee for the reception of the Indian Contingent from Suakim will be held at 5 p.m. today in the Municipal Office. It is hoped that all gentlemen who have been asked to join the committee will attend. Sir Charles Sargent, the Chief Justice, will preside.

THE *Government Gazette* published yesterday notifies that Monday, the 12th instant, is fixed for the election by the ratepayers of a member of the Municipal Corporation in the place of the late Mr. Nowrozjee Furdoonjee. The hours of polling will be from 9 a. m. to 6 p. m.

THE G. I. P. Railway Company intimate that as alterations in their train service are expected to be brought into force about the middle of the month of October, there will be no alteration in the Monthly Guide till the altered time-table is introduced.

THE summary of the week's season reports published in the *Government Gazette* states that good rain fell in all districts of the Deccan and Southern Maratha Country, but more rain is urgently required throughout Gujerat, where crops are withering, and in parts of Khandesh. Sowing of rabi crops has commenced in most districts of the Deccan and in parts of Bijapore and Belgaum. Fodder is scarce in the eastern talukas of Belgaum and Dharwar. Standing crops have been damaged by rats, worms, and storms in parts of Hyderabad, and by drought in parts of Kurrachee.

CAPTAIN C. W. H. SEALY is appointed to act as First Assistant Political Resident at Aden, in addition to his own duties, during the absence of Major F. M. Hunter.

THE *Pioneer* says it is practically settled that the Viceroy will not attend the Camp of Exercise, unless His Excellency pays it a flying visit in an informal manner from Calcutta, which is very improbable. The Allahabad paper also says that the home authorities have approved the transfer of the Indian Military Works from the Public Works Department to the Commander-in-Chief, and have also approved the permanent appointment of an Assistant Adjutant-General of Royal Engineers at Indian Army Head-quarters.

THE Madras Government has directed the Collector of Customs to prosecute the commander of the P. and O. steamer Kaiser-i-Hind, under the Petroleum Act, for importing 150 drums of kerosine oil which, on examination by the Chemical Examiner, were found to be over proof and dangerous.

IT is officially notified that the taluka of Mandvi in the district of Surat, which has hitherto been under the jurisdiction of the second-class subordinate judge at Olpad, will be placed under the jurisdiction of the second-class subordinate judge's court at Surat.

GOVERNMENT offices, at home and in India, are not always all that they ought to be from a sanitary point of view. The new post and telegraph offices at Madras have just been made the subject of reference to a committee of experts, who have been asked by Government to examine the office, with the view of giving an opinion as to whether residence there is prejudicial to health, in reference to certain evils recently brought to notice. The evils complained of are certain offensive smells believed to be caused by the opening of the main drain near the fort ; by the sewage which was pumped along the drain on the east front of the building ; and by defective drainage in the neighbourhood of the building. These smells were found to be so stifling that a combined representation was made by the Postal and Telegraph authorities ; and it will be interesting to see whether the committee can find a cure for them.

At the instance of the local Government, the Calcutta authorities have sent an experienced Bengalee artist modeller from the School of Art there to the Madras School of Art, to take models of the distinctive classes of native peculiar to the Presidency. Already four or five models have been taken, among them one of the Madras boatmen. These, with a few more still to be taken, will be draped in costumes peculiar to their respective classes, and despatched for the coming London and Colonial Exhibition of 1886.

THE Resolution of the Government of India upon the report on Education in the Central Provinces in 1884-5 is of special interest, inasmuch as it reviews the operation of the new arrangements whereby the local boards take a part in educational administration. Considerable progress has been made in this direction, and with very good result. So far, the Resolution says, from this transfer to local control having been detrimental to the interests of the institutions concerned, the experience hitherto gained shows that precisely the opposite has, as a rule, been the result. The attendance rolls have increased, and various useful improvements have not unfrequently been introduced. "The Governor-General in Council notices with very great satisfaction the really good work which has in many cases been done by members of these local bodies in promoting the cause of education, and he believes that the personal interests in educational matters which has been thus elicited on the part of influential native gentlemen cannot fail, if duly fostered and encouraged, to be followed by the happiest results in the promotion and extension of public instruction. . . . The increasing extent to which the people are shown to be desirous of helping themselves, by means of liberal subscriptions towards the establishment of new educational institutions and the improvement of existing ones, is regarded by the Governor-General in Council as most gratifying, and His Excellency in Council would express his hope that this movement may be encouraged in every legitimate way."

AN American doctor has drawn from the death statistics of a Boston life insurance society certain inferences favourable to heavy men as subjects for insurance. Among 974 deaths, 138 men were, on admission, 15 per cent. or more below the standard regarded as normal, and which is about the same as that accepted by British life insurance companies ; 122 of the total deaths were found to have been 15 per cent. or more above the normal weight. Phthisis occurred only in the first class ; cerebro-spinal disease, including apoplexy, though found in the first class, prevailed to a much greater extent in the second. The conclusions which he draws from his investigations are, that heavy weights are better subjects for life insurance than light weights ; that we must be more careful in estimating other disabilities affecting light than heavy weights ; and that we may with safety admit heavier weights than those usually regarded as being within the normal weights.

IT has been calculated that the Prince of Wales is entitled to wear seventy different uniforms. The estimate is rather under than over-stated, for he has a right to don seventeen military and volunteer uniforms alone, to say nothing of the special costumes associated with his position as Great Steward of Scotland, Governor of the Charter House, Lord of the Isles, President of the Society of Arts, Knight of some score of orders, &c.

RECENT statistics demonstrate that England has 65 square miles of colony to the square mile of her own area ; Holland, 54 ; Portugal, 20 ; Denmark, 6·30 ; France, 1·90 ; and Spain, 0·86 square miles. The area of the British colonies is nearly 8,000,000 square miles—rather less than the area of the Russian Empire, including Siberia and Central Asia ; and if the area of the native feudatory States in India, amounting to 509,284 square miles, be added, over which England exercises as great control as Russia does over much of the territory under its sway, together with that of the United Kingdom itself, 120,757 square miles, then the area of the British Empire exceeds that of the Russian Empire by about 200,000 square miles ; and it covers within a fraction of one-sixth of the whole land area of the globe.

The "Moderate Man" is once more being much talked about just now. Earl Cowper's recent article on "What is a moderate Liberal to do?" has brought him to the front again, and the *Saturday Review* has been moved to analyse him. With this result :—Trimmers, Moderate Men, and the like never have succeeded in England in doing anything unless they have for the time thrown themselves frankly on one side and kept to it—that is to say, unless they have for the time ceased to trim. Lord Cowper has some warrant for his distrust of a mere party for sitting on the fence. The Moderates who have done good in England are those who, nominally leading one party (generally, of course, the Liberal party), have had the statesmanship, the wit, or the mere good fortune to gain the confidence of the nation as distinguished from both parties, and to turn it away from the idle and mischievous exercise of what is called political activity to the sober business of minding its own affairs at home or abroad, as the case may be. That there is no man of this calibre at present among Moderate Men is tolerably apparent. There are no Walpoles, no Pitts, no Palmerstons about ; and when they are not about, it is too frequently the pleasure of the British nation to get into mischief, which Moderate Men like Lord Cowper and Lord Hartington never do much to prevent.

SIR LYON PLAYFAIR, the President of the British Association, in his inaugural address at the meeting at Edinburgh the other day, made some curious calculations as to the time saved through the substitution of the lucifer match for the old tinder-box. If, he said, before 1833 we had made the same demands for light that we now do, when we daily consume eight matches per head of the population, the tinder-box could have supplied the demand under the most favourable conditions by an expenditure of one quarter of an hour. The lucifer-match supplies a light in 15 seconds on each occasion, or in two minutes for the whole day. Putting these differences into a year, the venerable ancient who still sticks to his tinder-box would require to spend 90 hours yearly in the production of light, while the user of lucifer-matches spends 12 hours ; so that the latter has an economy of 78 hours yearly, or about 10 working days. Measured by cost of production at 1s. 6d. daily the economy of time represented in money to the population is £26,000,000 annually.

THE question of the condition of the French army is again attracting attention, the pamphlets recently published in Paris having created as much alarm as the *Pall Mall* articles on the navy aroused in England last year. Authors lament the disappearance from the French army of the *grand esprit militaire* which was formerly the pride, and on which the strength of a standing army must always depend. Owing to the prevalence of party feeling and luxurious habits during the latter years of the third Empire there was but little *esprit de corps* left among the officers, and that little vanished under the Republic. People spoke no longer of "French officers," but of officers of the army of the Rhine, of the army of Metz, and so on. Veterans were passed over or dismissed because they did not assimilate with sufficient quickness the new Republican notions, and all comradeship was destroyed by the fear of expressing opinions which might be distasteful to the Parliamentary majority, in whose hands the power of granting promotion and other military distinctions practically lies. The consequence is that French officers as a rule take but little interest in their men. "If one observes French officers in garrison, at their clubs, in barracks, or during manœuvres in the field, one finds a distinct decline in all the qualities which go to form the military spirit : there is a want of knowledge of the art of war, of noble sentiment, and even of discipline. Each man seems to do his utmost to shirk his duty, and it is singular how few French officers try to improve themselves in their profession." The remedy proposed for these evils is—first, to place the power of promotion, &c, exclusively in the hands of the Commander-in-Chief and the President of the French Republic ; and, second, to require each officer to pass a searching examination in military science before he is regarded as qualified for promotion.

DEPARTURE OF THE GAEKWAR FOR BARODA.

HIS HIGHNESS the GAEKWAR, who had been enjoying the season at Poona for some time, left by a special train last night for his dominions. The special, which left Poona at 3-30 p.m. yesterday, consisted of the Gaekwar's state saloon, two first-class carriages, one second-class carriage, one composite, two third-class carriages, one road-van, and two brakes. His Highness's party reached Lanowlie at 5-15 p.m., leaving it seven minutes later. A detention of only five minutes occurred at Karagat, which was left at 7-5 p.m. The special halted half an hour at Kallian, and leaving Tanna at 9-2 p.m., reached the Dadur junction, 114½ miles, at 9-40 p.m. Here the same carriages that brought the party from Poona were transferred to the B. B. and C. I. Railway line, and ran through to Baroda. Dadur junction was left at 9-45 p.m., and at midnight the special was timed to be at the Palghar station. Damaun-road was to be left at 2 a.m. to-day, Billimora at 3-3 a.m., Nowsaree at 3-30 a.m., Surat at 4-37 a.m., and Broach at 6-20 a.m., the special arriving in Baroda at 8-15 a.m. to-day.

PAVED FOOTPATHS IN BHENDY BAZAAR.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—During the current year a work of real public utility and convenience was carried through in the native town. I mean the paving with blue-stone of the footpaths on the west and east sides of the Bhendy Bazaar-road from Pydhonee up to the Jamsetjee Hospital. Either from ignorance or apathy a native pedestrian is seldom mindful of the rule of the road ; and the consequence was that, for years past, carriage accidents were more frequent in Bhendy Bazaar, the most populated quarter of the city, than in other parts. Owing, I believe, to the reiterated suggestions of the late Mr. Nowrozjee Furdoonjee, the footpaths on both sides of the road were paved with blue-stone at considerable cost. They were good, broad, useful footpaths, which proved a source of much public convenience and comfort, as well to the tradesmen and shopkeepers of the street as to pedestrians generally. The masses of the people took kindly to them ; and the evident result in one sense was that carriage accidents were minimised. I regret to say, however, that within the last few days it has entered somebody's head to undo the work, which must have cost the Municipality thousands of rupees. The stone pavement has been cut up, and the footpath is being narrowed to about one-third of its present width—so narrow indeed that two persons can hardly walk abreast. Such a waste of Municipal money, not to speak of the great public inconvenience which had been removed, and would by the present measure be unhallowed, is inexplicable. It would thus be called for severe animadversion from Mr. Nowrozjee Furdoonjee had he been living. D.

Holloway's Ointment and Pills.—Outward infirmities.—Before the discovery of these remedies, many forms of sores, sloughs, &c., were pronounced to be hopelessly incurable, because the treatment pursued tended to destroy the strength it was incompetent to preserve, and to those of the constitution it was inadequate to restore. Holloway's Pills exert the most wholesome power over the unhealthy flesh or skin, without debarring the patient from fresh air and exercise, and thus the constitutio al vigour is husbanded while the most malignant ulcers, abscesses, and skin diseases are in process of cure. Both Ointment and Pills make the blood rich and pure instead of permitting it to fall into the poisonous watery state so fatal to man labouring under chronic ulcerations.

HINDU SOCIAL REFORM, IT[illegible] OPPONENTS AND ADVOCATES.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I have perused with much pleasure your Tuesday's article on Hindu social reform in relation to early marriage ; but I think I may complain of some injustice in being charged with finding fault with your "policy in dealing with the subject as it really is, and analysing its elements with a view to taking them in detail." What I demurred to in your article on enforced widowhood was, not the criticism, which sought to depict the subject as it was, but that spirit of exaggeration on the other side, which tended to deprecate reform and apologise for, if not justify, opposition to it. Your present article, I gratefully admit, is free from such a spirit, and your suggestion to utilise Justice Pinhey's decision in the recent case is such as ought to satisfy reasonable reformers and conservatives alike ; but, sir, in order to be convinced that Hindus are making no progress in social reform you have only to see how vehemently this decision is characterised by their so-called leaders and your men of "learning and intellectual pre-eminence" as calculated to undermine the foundation of human society itself, and how fast and firm they hold to the doctrine, reprobated by the decision of Mr. Pinhey, that woman is a chattel, even as a horse or a bullock. The truth is, the Brahmans place woman and Shudras—and all non-Brahmans are in their eyes Shudras—on the same footing, and therefore it is useless to expect from them any step in voluntary reform. Poverty or other hard physical conditions may bring about what looks like cases of progress in either of the two instances, but the Mahomedans have a strong case, which is deceptive. You will—as a rule—not find them among well-to-do people who stick to the old abuses as firmly as ever. I therefore trust you will allow me to make a few remarks in continuation of my last.

I told you in that communication how your first article would be utilised for their own purposes by the opponents of social reform, and I see mooted some of their organs. The *Dnyan Prakash*—one of them—says, referring to it, that though written in a calm spirit it completely refutes the Hindoo Law Text letter, and hopes that its perusal will bring the libellers of the Hindoos to their senses. This sedate and "patriotic" journalist acutely smells even from afar political harm in the allusions in Anglo-Indian letters to the London *Times* to social evils invented by the foolish and misguided reformers so called (who are duly reminded of this mischievous result of their vain cries) ; but nowhere does he give the slightest indication that he accepts as proved the existence of the evil of enforced widowhood, even within the limits you confine it to, or admit any necessity for its correction. Nay, he even quietly passes over your allusion to the assertion of their rights by Hindu women, which otherwise would have thrown him into a fury at the egregious ignorance of an Anglo-Indian writer about Hindu society. But it was enough for this Bombay upholder of social abuses and advocate of political progress that your article tended to justify him in his reluctance to recognise the evils of his society or to take any action to remedy them. This is much too complimentary from your columns he rests and is thankful. And the other paper I named—*Native Opinion*—has made discovery of a "remarkable fact" which justifies a wholesale utter disregard by the advocates of Hindu social reform ; for, says this pillar of orthodoxy, female education and female liberty have heretofore been regarded as essential to the amelioration of Hindu society by its reformers, but the *Pall Mall Gazette*'s disclosures have made Englishmen themselves sick of female liberty, and the Rev. Mr H. B. Chapman declared before hundreds of people at Camberwell that to save poor women from such enormities as the *Pall Mall* has exposed no remedy is so efficacious as infant marriage ! Can there be a greater indication of the utter nonsense that unenlightened Hindu custom ? Marry every female child as soon as you can, the sooner the better ; for if she becomes the very next day a widow, it does not matter. The lower is an enforced widowhood, the more favourable state of existence, and ought, even if she cannot, to cope with evils and temptations which would be death to her only as a spinster, whether young or old ! Such is the outrageous length to which the trashiest arguments and shopkeepers of the street as to pedestrians generally. The masses of the people took kindly to them ; and the evident result in one sense was that carriage accidents were minimised. I regret to say, however, that within the last few days it has entered somebody's head to undo the work, which must have cost the Municipality thousands of rupees. The stone pavement has been cut up, and the footpath is being narrowed to about one-third of its present width—so narrow indeed that two persons can hardly walk abreast. Such a waste of Municipal money, not to speak of the great public inconvenience which had been removed, and would by the present measure be unhallowed, is inexplicable. It would thus be called for severe animadversion from Mr. Nowrozjee Furdoonjee had he been living. D.

The Hon. Dadabhai Naorojee will take the chair. All Parsees are invited.

CRIMINAL BREACH OF TRUST.—Appa Rama was yesterday convicted by Mr. F. Ryan of criminal breach of trust in respect of several gold and silver ornaments, brass vessels, and articles of wearing apparel, belonging to Balkoo Ram. The complainant is a servant in the nousenold of a vakeel a Broach. He formed an acquaintance with accused, and they travelled down together to Bombay. At the Dadur railway station complainant asked accused to carry his bundle, and the latter absconded with it at the first opportunity. He was subsequently arrested while endeavouring to leave Bombay with the stolen property. He was sentenced to one month's simple imprisonment.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ended on Tuesday, 29th September, was 452, being 28 more than in the previous week, 44 less than in the week ending the September, 1884, and 15 more than the mean of the corresponding period in the preceding five years. During the week 327 births were reported in the different districts of the city. The rate of mortality per 1,000 of population per annum was 25·99 calculated on the increase of population since 1884. There were 94 deaths from remittent fever, being 21 more than in the previous week, and 23 less than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were last week 70, 17, and 12 respectively as compared with 71, 31, and 16 in the same time last year. No death from cholera was registered last week, being 2 less than in the week previous.

THE GRANT-ROAD MAHOMEDAN BURYING GROUND.

ON Sunday a large number of Mussalmans assembled at the Juma Musjid, in response to the invitation issued by the trustees of the Musjid, for the purpose of taking steps to protest against the closing of the Mahomedan burial grounds, situated at Grant-road and elsewnere. Amongst those present were Cazee Shareef Abdool Latif Saheb Londay, Cazee Shaik Mahomed Saheb Moorgaay, Syed Hirsay Mohedin Rafasee Saheb Moulavi Abdool Hained Saheb, Moulave Abdool Cadir Saheb Jitker, Cazee Mahomed Ismail Saheb Makhee, Mr. Mahomed Ibrahim Saheb Jiteker, Mahomed Hoosein Hakeem, barrister-at-law, Docior Shaik Sultan Saheb Hakeem, Hajee Hashum Saheb Noorani Husom Meya Saheb Rahimtoola Saheb Mahomed Ali Saheb Hajee Oosman Chootani Saheb, Hajee Ganis Ahmed, Hajee Ibrahim Oosmen Kharees, Cootbooideen Paloba, Shahabooden Palobs, Moonshi Mahomed Alawooddin Khateeb, Mahomed Syed Dhocklay, Shaik Moh Pateli, Hajee Mahomed Ibrahim Shaik Bhican, Hajee Abdool Kareem, Goolam Hoosein Bhaijee, Mahood Meva Soortee, Hakeem Mahomed Ismail Chimjay, and others. Although the notice calling the meeting was only issued on the very and morning, more than a thousand persons attended, and the proceedings commenced at 3 p.m.

On the proposition of Mr. Munshee Mohailwoodin Khateeb, seconded by Mr. Hajee Mahomed Ibrahim Bhican, Cazee Shareef Abdool Latiff Saheb Soorday, the Cazee of Bombay, took the chair. Dr Shaik Sultan, L. M. and S., then rose and said the respected ancestors of the learned Moulavi Cazee Mahomed Ismail Mahree purchased a large piece of land near Grant-road and dedicated the same for the burial of the Mahomedan dead. In doing so they have incurred a large outlay and provided a convenient place for the disposal of the dead bodies of their co-religionists. This place has since been used for the purpose for which it has been dedicated, without any hindrance, but the Municipal authorities have now issued the following notice regarding this trust property :—

It is hereby notified for the information of the public that the Mahomedan Cemetery at Grant-road is in an insanitary condition from over-crowding and other causes ; that it is proposed to close the said cemetery ; and that burial shall not take place after examination. So long as the Municipality were not in a position to prove indisputably that there was larger mortality in the ward in which the Grant-road burial ground is situate than any other ward, and that this increased mortality was solely due to the presence of the much abused Grant-road burial ground, they had no right to disturb the Mahomedan community in their peaceable possession and enjoyment of it. Although he was not a doctor he was sure there was a great conflict of opinion as to whether the vicinity of a graveyard is absolutely injurious to the health of the community. The Municipality, if they wished to do some really useful work, he would indeed earn the thanks of the community, whether it be Hindu, mahomedan, or Parsee, if he would take active measures in removing at once and for ever the diabolical night soil depot at Nagpara and Bara Emaum, situated in the very centre of a most populous ward, and which was making victims by hundreds and thousands. With reference to the argument that as Englishmen had given up their old burial ground at Queen's-road, and consented to go to Sewree to bury their dead, there was no comparison, as Parsees were not about to go to some part of Bombay equally remote. Mr. Hakeem said the reply to this argument was short, simple, and conclusive. The English took their dead to the cemetery in carriages drawn by horses, while Mahomedans were enjoined to carry their dead on their shoulders. From all points of view, whether they consulted their religion or convenience or comfort, he urged that the Mahomedans had a strong case, which should be properly represented to the authorities ; and he was sure they would succeed at the hands of a Government not less remarkable for its benevolence than foresight. (Applause.)

Mr. Hajee Ibrahim Oosmen Bhican, in proposing the appointment of a committee, said that from what had fallen from the previous speakers he felt sure that they would agree with him upon the necessity of taking immediate measures to avert the blow aimed at their comfort and religion by some designing persons, especially the correspondent "Mahomedan," of the *Bombay Gazette*, as in his opinion no harm could ever arise from the intended burial ground. On the contrary if they were required to use any other distant one they would have to face great evil, both physical as well as religious, and he hoped they would by concerted measures see that never allow such a course to be taken. In order to adopt active measures a representative committee must be appointed, and therefore he proposed that Messrs. Cazee Abdool Latiff Saheb Soorday, Cazee Shaik Mahomed Saheb 'Moorghay, Shaik Moosa Abdool Latiff, Shaik Abdoola Salim Bawazir, Hakeem Mahomed Hoosein, Souleman Abdool Wanir, Hajee Hasham Noorani, Hajee Abdool Careem, Hajee Cassum Jairam, Hajee Ibrahim Oosman, Hasson Meyan Rahimtoola, Hajee Mahomed Ibrahim Jiteker, Moulavis Hajee Abdool Cader Jiteker, Shaik Ahmed Khatkbatay, Hajee Ismail Ahmed Patuan, Moulavi Abdool Cader Moonshee Mahamed Ismail Onday, Hajee Shaik Husson Rogbay, Moonshi Mohamed Ismail Muckba, Mohamed Abdulla Coor, Hakim Mouamedali Murghay, Mohamed Ismail Shaik Bhica, Cootbooddin Paloba, Shaboodin Palobs, Shaik Ahmed Dalvi, Nacoda Mahomed Hoosein Rogay, Hakeem Mohamed Bakar, Moonshi Shaik Ahmed Muckba, Syed Hussanoobeddin Rafae, Dr. Shaik Sultan, and Moonsh

GANDY'S AMERICAN COTTON BELTING

TO those having the use and care of machinery it is of the greatest importance to know what is the best belting to use to transmit power To such and to all the answer is, USE THE GANDY BELT.

It has imitators, and this is the strongest proof possible, that is an article that is worth spending cash on to imitate. If it were a worthless article, or one that had not been VERY SUCCESSFUL, no one would go to the expense and trouble to imitate it. Imitation is the strongest form of flattery, and those who imitate the "GANDY" belt are proclaiming to all belt users, that the GANDY belt is the best that has ever been put before the public.

The GANDY belt has acquired such a deservedly high reputation, that belt users, after having tried all others, come back to Gandy and declare that, notwithstanding the difference in price, they find it to their advantage to use the American Cotton Belt made, only by the inventor and patentee.

MAURICE GANDY

CHOLERA PILLS
CERTIFICATES.

LAHORE, BLOSSOMVILLE, 22nd April 1882.

T. COTTER, Esq.

DEAR SIR,—I have much pleasure in testifying to the efficacy of your valuable Cholera Pills. Last year I cured my wife, child and a servant. I did not call in a Doctor, but gave your pills with confidence and without hesitation; I had so much faith in them.

Your pills thave done a great deal of good locally, and I would like to see them receive a universal circulation for he benefit of the thousands who perish for want of a specific.

I remain, Dear Sir, Yours faithfully,
ALEX. LEMMON,
Govt. Tele. Dept.
LAHORE, 22nd April 1882.

To
MR. COTTER.

DEAR SIR,—We have tried your famous Pills and Mixture for the "Cholera" disease; it is the only medicine as far as to my knowledge the best remedy for this disease in the world. Besides ourselves and family we gave to several others, and the result has proved successful; and we hope that this remedy will be known over the whole world, as we strongly recommend it.

Yours truly,
IS MUHEE LAL & SON
LAHORE, 23rd April 1882.

To
T. H. COTTER, Esq.

DEAR SIR,—I am much thankful for your being liberal in giving your valuable Pills to my wife while she was attacked with cholera in July last, and glad to say that she recovered well within three days. Wishing you every success.

Yours truly,
S. HORMUSJEE.
